Contents – Volume 2

07 Sales Performance – Pipeline & Targets

Funnel conversion, bookings vs target, rep leaderboard, pipeline by industry, loss reasons

Techniques: RANKX leaderboard, weighted pipeline, cumulative attainment

Theme: classic — page 3

08 E-commerce – Online Store

Daily revenue & moving average, category treemap, cohort retention, conversion funnel

Techniques: Sparkline KPIs, cohort matrix, 7-day moving average

Theme: vivid — page 4

09 Finance – Cash Flow & Working Capital

13-week cash forecast, cash bridge, DSO / DIO / DPO trends, cash conversion cycle

Techniques: Forecast band, horizontal waterfall, small multiples, gauge

Theme: minimal — page 5

10 Finance – Management Accounts

Income statement actual vs budget, cost-centre variance, margin trends, budget burn

Techniques: Variance matrix, diverging bars, treemap, sidebar navigation

Theme: sidebar — page 6

11 Supply Chain – Procurement & Suppliers

PO spend & savings, supplier scorecard, OTIF vs quality, purchase price variance

Techniques: Dark theme, lollipop chart, quadrant scatter, RAG scorecard

Theme: dark — page 7

12 Oil & Gas – Equipment Rental & Utilisation

Fleet status by equipment type, utilisation gauge, revenue by field, contract expiries

Techniques: 100% stacked bars, gauge, expiry timeline, day-rate analysis

Theme: sand — page 8

13 Oil & Gas – Inspection & Maintenance

Certification compliance, inspections due calendar, PM vs corrective, downtime Pareto

Techniques: Due-date heatmap, Pareto, reliability KPIs (MTBF)

Theme: steel — page 9

14 Transport – Fleet Management

Distance & fuel efficiency, cost per km by vehicle type, telematics events, idle time

Techniques: Stacked cost breakdown, heatmap, bullet charts

Theme: dark — page 10

15 Transport – Last-mile Delivery

Weekly on-time %, emirate performance, driver scorecard, failed-delivery reasons

Techniques: Target lines, data-bar scorecard, hourly profile

Theme: minimal — page 11

16 Stock & Inventory Management

Receipts vs issues, stock ageing by warehouse, reorder alerts, dead stock, count accuracy

Techniques: Ageing buckets, reorder-point logic, treemap, gauge

Theme: sidebar — page 12

07 Sales Performance – Pipeline & Targets

B2B sales team · FY2026 YTD (Jan–Sep) · CRM opportunity data

Year: 2026 ▾ | Region: All ▾ | Sales rep: All ▾

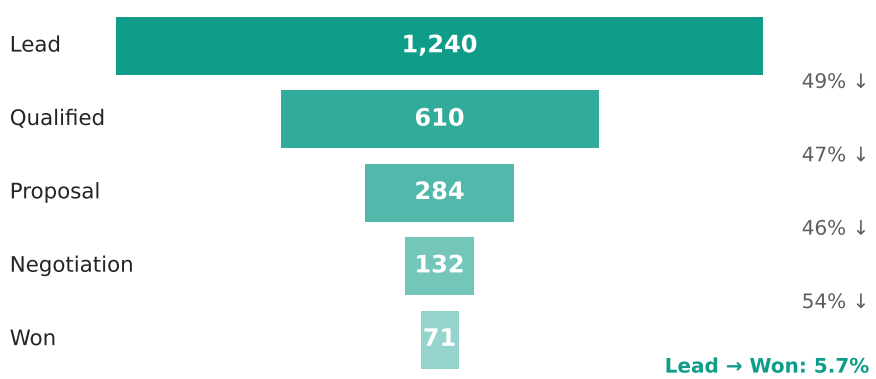

REVENUE BOOKED YTD
AED 22.4M
▲ +14.2% vs PY

OPEN PIPELINE
AED 48.6M
▲ +12.4% vs last quarter

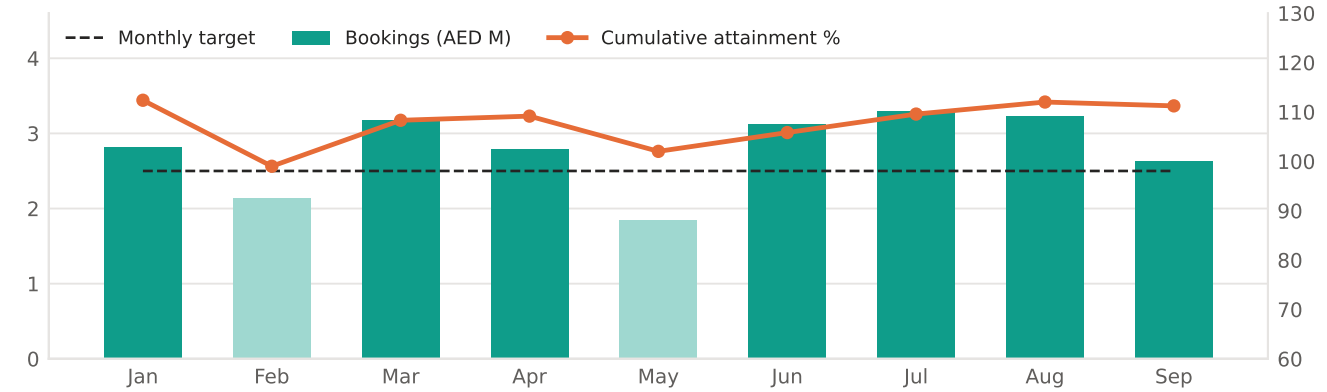

WIN RATE
31.2%
▲ +2.7 pts vs PY

AVG SALES CYCLE
42 days
▲ +5 days vs PY

Opportunity funnel (YTD)

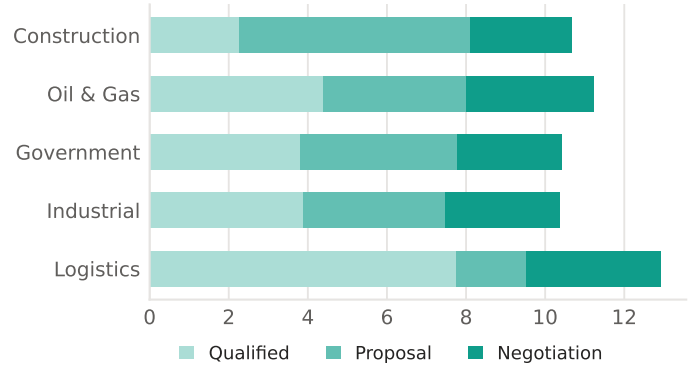

Monthly bookings vs target, with cumulative attainment

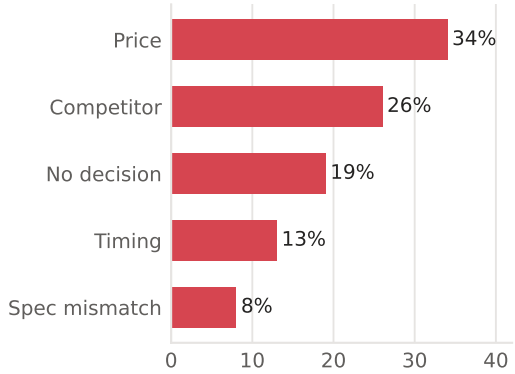

Sales rep leaderboard

Rep	Won	Revenue	Win %
1. Fatima R.	6	AED 4.5M	30%
2. Arjun M.	10	AED 4.4M	27%
3. Omar K.	15	AED 3.5M	40%
4. Grace T.	6	AED 3.2M	31%
5. Rahul S.	15	AED 3.1M	28%
6. Layla H.	13	AED 1.8M	37%
7. Daniel P.	6	AED 1.8M	29%
8. Sana A.	6	AED 1.6M	23%

Open pipeline by industry and stage (AED M)

Top reasons deals were lost

Business question: Are we on track to hit target, where do deals drop out of the funnel, and which reps and industries convert best?

Techniques shown: Stage conversion with DIVIDE · weighted pipeline = SUMX(Opps, Amount × Probability) · RANKX leaderboard · cumulative % vs target

08 E-commerce – Online Store

Direct-to-consumer web store · Jul–Sep 2026 (last 90 days) · GA4 + order data

Year: 2026 ▾ | Channel: All ▾ | Device: All ▾

Delta Filters LLC	4.2M	98%	96.7%	● Preferred
Prime Steel Fabricators	3.6M	87%	96.7%	● Monitor
Orient Batteries	3.3M	90%	99.5%	● Preferred
Rapid Logistics	1.4M	96%	96.8%	● Preferred

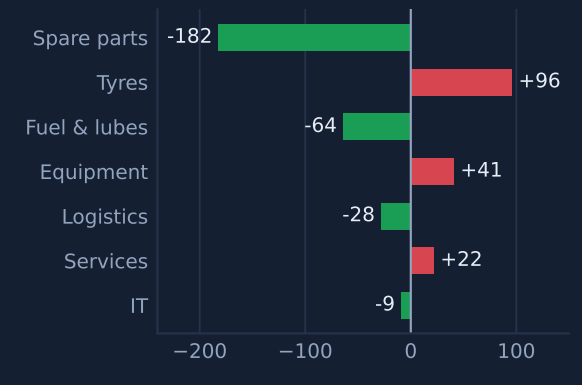

Spend by category (AED M)

Supplier OTIF vs quality (bubble = spend)

Purchase price variance vs contract (AED K)

Business question: Are we buying at the right price from the right suppliers, and which suppliers threaten service levels?

Techniques shown: PPV = (Actual price − Contract price) × Qty · weighted supplier score · quadrant scatter · lollipop · dark theme

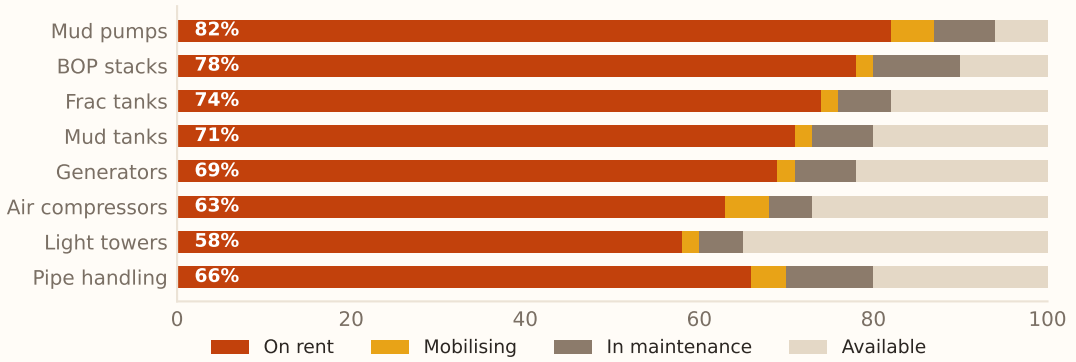

12 Oil & Gas – Equipment Rental & Utilisation

Oilfield equipment rental (fictional) · FY2026 YTD (Jan–Sep) · UAE onshore & offshore fields

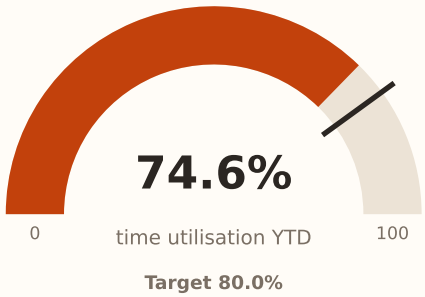

Year: 2026 ▾ | Field: All ▾ | Equipment: All ▾

FLEET UNITS	FLEET UTILISATION	RENTAL REVENUE YTD	AVG DAY RATE	CONTRACTS EXPIRING ≤ 90D
1,184	74.6%	AED 58.3M	AED 1,240	23
▲ +62 units vs PY	▲ +3.8 pts vs PY	▲ +16.4% vs PY	▲ +4.1% vs PY	▼ AED 6.1M at stake

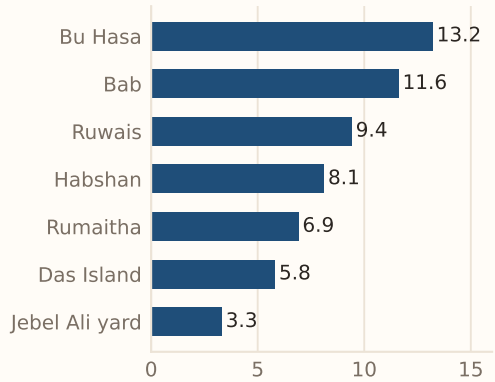

Fleet status by equipment type (% of units)

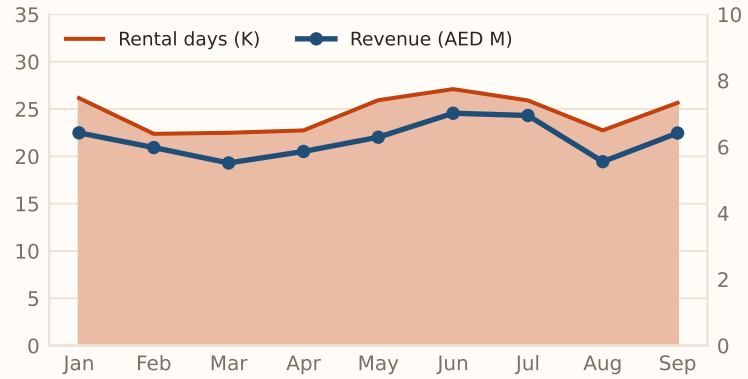

Fleet utilisation

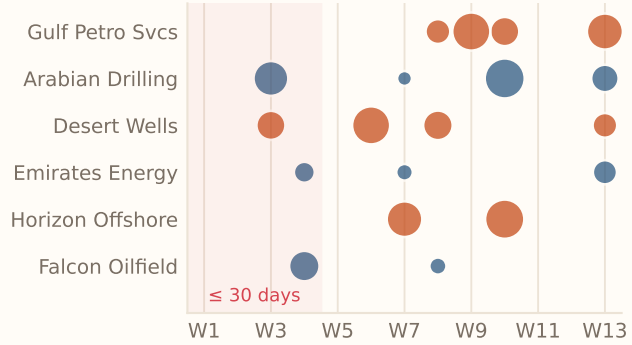

Rental revenue by field / site (AED M)

Rental days on hire and revenue by month

Contracts expiring – next 13 weeks (bubble = value)

Top clients YTD

Client	Revenue	Day rate
Gulf Petro Svcs	11.5M	1,300
Arabian Drilling	10.7M	1,256
Desert Wells	8.9M	1,402
Emirates Energy	7.8M	1,432
Horizon Offshore	4.6M	1,403
Falcon Oilfield	4.1M	1,104

Business question: How much of the oilfield fleet is earning, which fields and clients drive revenue, and which contracts need renewal now?

Techniques shown: Status snapshot with 100% stacked bars · gauge vs target · expiry timeline from contract end dates · day rate = Revenue / Rental days

13 Oil & Gas – Inspection & Maintenance

Oilfield equipment integrity · Status as at 18 Oct 2026 · Inspection register + work orders

Year: 2026 ▾ | Field: All ▾ | Equipment: All ▾

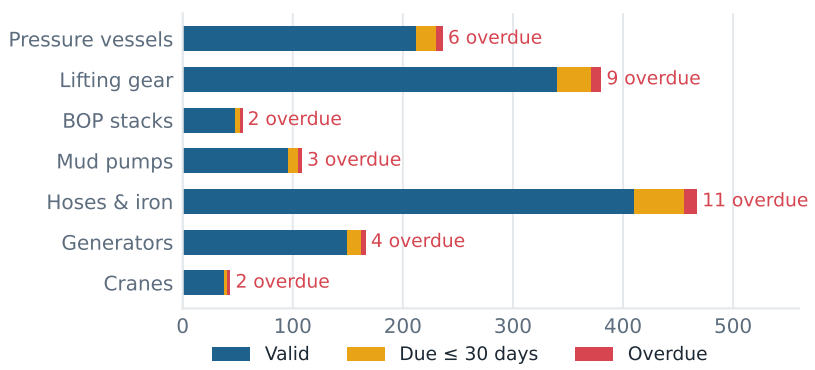

CERTIFICATION COMPLIANCE
94.2%
▲ +1.7 pts vs last month

OVERDUE CERTIFICATES
37
▲ +5 vs last month

EQUIPMENT AVAILABILITY
91.8%
▲ +0.9 pts vs PY

MTBF
410 hrs
▲ +46 hrs vs PY

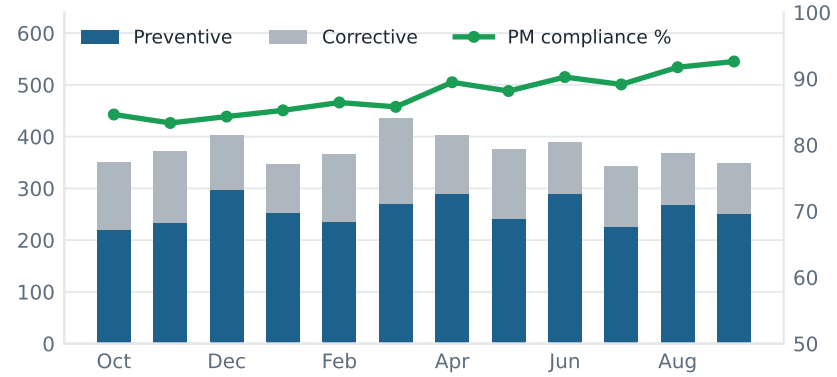

Certification status by equipment type (units)

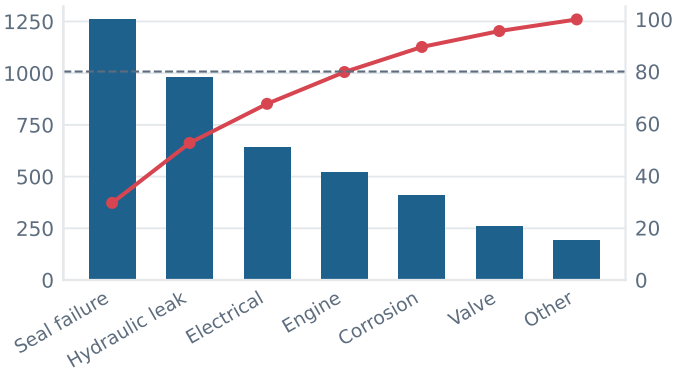

Inspections due – next 12 weeks (third-party, load & pressure tests)

	W43	W44	W45	W46	W47	W48	W49	W50	W51	W52	W53	W54
Pressure vessels	1	4	6	1	2	5	2	3	3	1	2	2
Lifting gear	6	3	7	1	4	8	5	7	6	5	4	11
BOP stacks	1	1	0	0	2	1	0	0	2	0	1	0
Mud pumps	3	0	2	0	2	1	2	2	3	3	0	0
Hoses & iron	3	2	8	2	2	8	9	7	15	2	6	4
Generators	2	4	1	2	2	1	2	2	2	1	1	3
Cranes	3	1	1	1	2	2	0	0	0	1	1	3

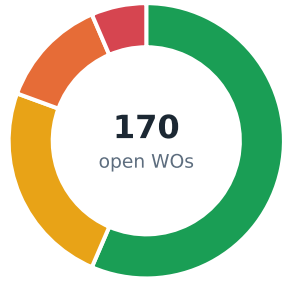

Preventive vs corrective work orders and PM compliance

Downtime hours by failure mode (Pareto)

Open work orders by age

- < 7 days 56%
- 7–14 days 24%
- 15–30 days 13%
- > 30 days 6%

Business question: Is every pressure-rated and lifting asset certified to work, what is due next, and which failure modes cost the most downtime?

Techniques shown: Due-date buckets with DATEDIFF(TODAY(), Next due) · week × equipment heatmap · MTBF = run hours / failures · Pareto

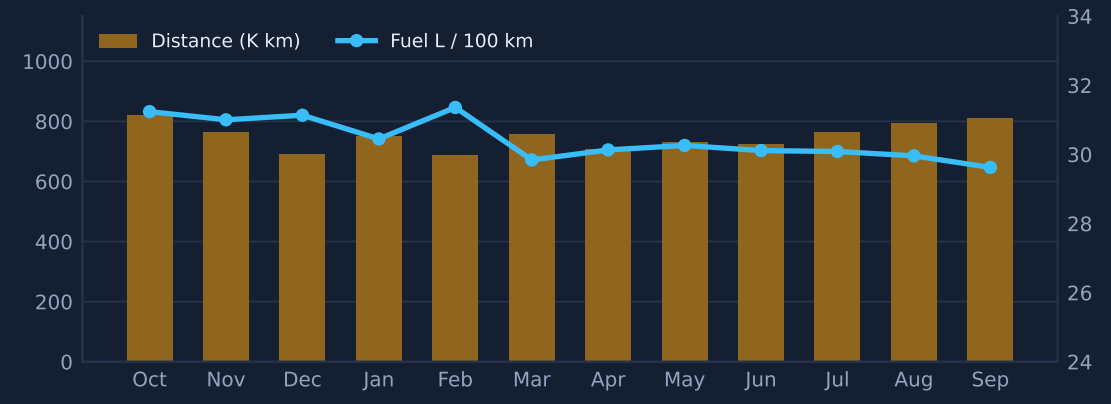

14 Transport – Fleet Management

Heavy & light vehicle fleet · Rolling 12 months to Sep 2026 · Telematics + fuel cards + workshop

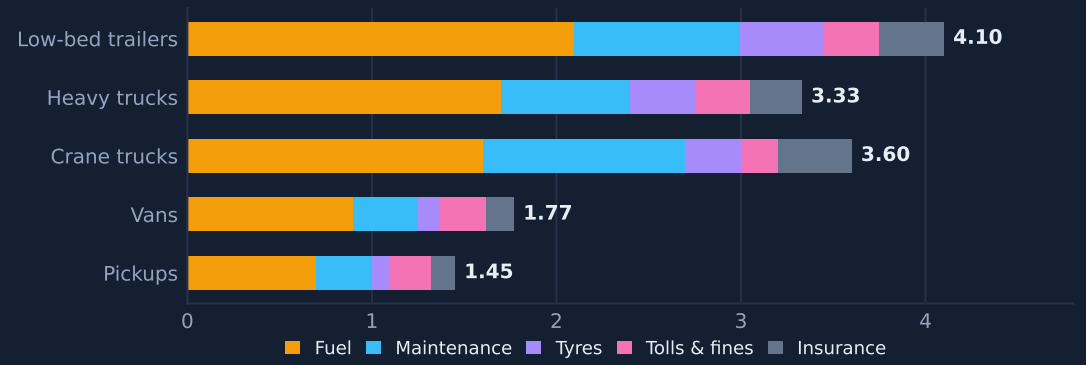

Year: 2026 ▾ | Depot: All ▾ | Vehicle type: All ▾

ACTIVE VEHICLES	DISTANCE DRIVEN	COST PER KM	FLEET AVAILABILITY	SAFETY EVENTS / 1,000 KM
312	8.94M km	AED 2.84	93.1%	0.42
▲ +14 vs PY	▲ +9.2% vs PY	▼ -0.11 vs PY	▲ +1.2 pts vs PY	▼ -0.09 vs PY

Distance driven and fuel efficiency

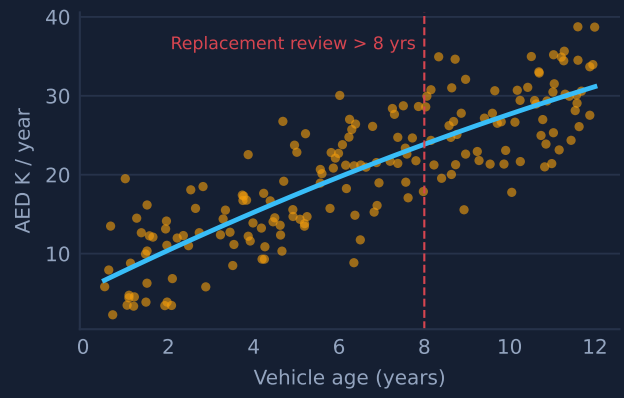

Cost per km by vehicle type (AED)

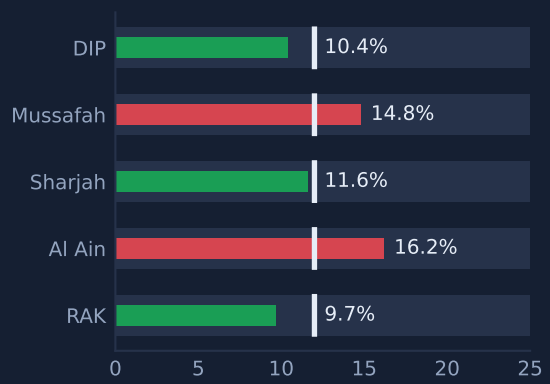

Telematics events by depot (per 100K km)

	Harsh brake	Speeding	Harsh accel.	Seatbelt	Fatigue
DIP	5.2	8.5	16.1	4.4	1.2
Mussafah	19.7	16.5	12.2	6.8	5.2
Sharjah	4.4	29.7	20.7	4.5	4.7
Al Ain	5.7	42.3	12.8	8.1	4.8
RAK	31.6	5.8	15.4	2.3	1.9

Vehicle age vs annual maintenance cost

Engine idle time by depot (target ≤ 12%)

Business question: What does each km cost by vehicle type, which depots drive unsafely or idle too long, and when should vehicles be replaced?

Techniques shown: Cost per km = total cost / distance · telematics rate per 100K km · polynomial trend · bullet charts · dark theme with sparklines

15 Transport – Last-mile Delivery

UAE parcel & spare-parts delivery network · Rolling 12 weeks to 18 Oct 2026

Year: 2026 ▾ | Emirate: All ▾ | Hub: All ▾

DELIVERIES
494K
▲ +11.6% vs prior 12 wks

ON-TIME DELIVERY
